Benefits of Associate Membership

Associate Members

The Kansas Home Care & Hospice Association recognizes that our industry is made up of many different types of providers and service organizations. Each plays a vital role in meeting the care needs of our clients. Many of our members provide services primarily in the patient's home. But many others provide more "indirect" services that are equally necessary and important to our ability to function successfully as home care and hospice businesses and direct service providers. In our association, these providers of indirect services are categorized as **Associate Members**, and have all the privileges of membership and actively participate in KHCHA initiatives.

As a service organization, KHCHA strives to meet the many different needs of its diverse membership. Consequently, a number of our activities are designed to offer opportunities to both direct and indirect providers. Some of these activities may be of particular interest to your business, and we invite you to consider the advantages of becoming an active member of the Kansas Home Care & Hospice Association.

Statewide Annual Meeting

The KHCHA Annual Meeting is held each September at a site selected by the board of directors. It is the major home care and hospice event in Kansas and draws participants from every corner of the state and surrounding states as well. This special event includes many management and clinical workshops and concurrent conferences for special disciplines. Home care and hospice vendors are offered exhibit, sponsorship, advertising and speaking opportunities. KHCHA members receive a 50% discount on annual meeting exhibit and advertising fees.
