

The KHCA District 2 meeting was held February 18, 2016 at the Via Christi Home Health Agency conference room. There were 7 in attendance at the luncheon meeting. Announcements were made on VBP data for October, F2F ADR requests in effect now, CMS Impact Act and discharge planning, ICD 10 challenges and payment effects, stay on top of your Quality measures for STAR Ratings and also discussed the Medicaid proposed F2F. Then the rest of the meeting was filled with the knowledge presented by our guest speaker Dan Ast on PICC, Central line care and maintenance, and on prevention of complications. Dan provided some good tools for documentation and competency validation. The meeting adjourned. The upcoming spring webinar information was provided and will be emailed to members. Will be making plans for our next district meeting in May.
