Program Abstract

The 2016 Fiscal Year for home health has already seen a multitude of changes and additions for the home health industry. After several delays, ICD-10 finally became implemented on October 1, 2015. There are ever-changing guidelines for Face-to-Face documentation and recertifications. Even with all of these pressing issues, agencies continuously face ADRs, denials and monitoring. Additionally, the industry witnessed the introduction to new COPs, the star rating program and value-based purchasing (VBP). While all of these things are currently happening or are looming on the horizon for 2016, it can be overwhelming to agency staff. Join the Kansas Home Care Association and PPS Plus's Education Director, Jennifer Warfield, for a 1.5-day conference to discuss and delve into all of these issues.
