## Program Objectives

Medicare Home Health is a critical service to assist and support our older population to recover from illnesses, injuries, and learn how to safely manage chronic diseases while staying in their home environment. Understanding critical factors to ensure the success of an organization offering this service will lead to healthy communities and long term partnerships with patients, families, and other health care providers across the continuum. Clinical processes that lead to excellence will be explored along with key regulatory criteria that must be followed and maintained will be the focus of this workshop.
