Program Objectives

Medicare Home Health is a critical service to assist and support our older population to recover from illnesses, injuries, and learn how to safely manage chronic diseases while staying in their home environment. Understanding critical factors to ensure the success of an organization offering this service will lead to healthy communities and long term partnerships with patients, families, and other health care providers across the continuum. Clinical processes that lead to excellence will be explored along with key regulatory criteria that must be followed and maintained will be the focus of this workshop.

Part 1—The Framework for Home Health Services

75 minutes

- * Describe the history of home health nursing in the U.S.
- * Identify the key regulations and guidelines as provided in the Conditions of Participation and Kansas State Licensure for Home Health.
- * Relay the importance of other regulatory bodies to Medicare Home Health.

Part 2—The Key to Medicare Home Health: The Home Visit

75 minutes

- * Outline the “pre-visit” work plan.
- * Demonstrate the key aspects of a Home Health Visit.
- * Describe the critical components of interaction with each patient to ensure a successful integration into the home.

Part 3—Ensuring Quality and Survey Readiness

75 minutes

- * Describe the key clinical criteria used to evaluate quality.
- * Describe the key criteria used to define patient engagement and the equation to quality.
- * Outline the assessment and maintenance of survey readiness.
